

FamilyWize Prescription Drug Card

Take One and Save Money

FamilyWize is in All 50 States

The FamilyWize Community Service Partnership is a nationwide prescription drug discount program supported by a partnership of national chains as well as some local pharmacies, America's Promise, United Way and others. Savings on the cost of the medicine are provided by the pharmacies.

About 95% of pharmacies in the United States have agreed to accept prices for medications that are close to the prices they make available to large insurance companies and employers.

In Alaska

Prescription drug discount cards have been distributed for free by the United Way of Mat-Su and our community partners. This year, Alaska Health Fair will be distributing cards at health fairs throughout Alaska.

Some pharmacists use a FamilyWize card for all their uninsured or underinsured customers. They keep a supply of the cards next to the register and in the drop off area to make certain that every uninsured or underinsured customer gets one to use right away. The card may be used as many times as needed and assists those without insurance or without prescription drug coverage to get a discount. The card may be used during non-covered periods, such as the Medicare donut hole.
