

Vision: Youth and families thrive in a caring and connected community.

Mission: Provide activities and opportunities to help youth and families thrive.

Youth Engagement Specialist

Background and Position Summary

Youth 360 is an initiative to connect local youth to their peers, parents, and community to improve health and wellness throughout the Mat-Su. The more connected a young person is, the more likely they will become happy, healthy, thriving adults. Social connection is linked to increased rates of health and well-being and reduced rates of bullying, suicide and depression, and substance misuse.

Youth 360 builds connection by providing positive, meaningful activities and opportunities for young people and their families. Youth will be able to contribute their ideas to help shape programs. Youth 360 offers an afterschool youth club, fun and interesting activities, family events, summer programs, behavioral health services and transportation. Youth 360 programs launched in Houston and Wasilla in June 2019.

Youth Engagement Specialists staff a Youth Club for middle and high school students after school, during school breaks and scheduled summer hours. Youth Engagement Specialists are responsible for building and maintaining a positive, accepting program atmosphere that allows youth to build their sense of belonging and connection to their peers, their school and their community. Youth Engagement Specialists will receive specialized training in positive youth development and trauma-informed practices to enable them to promote positive protective skills in youth they work with and support. Youth Engagement Specialists will help youth plan programming for the Youth Club and develop a welcoming, safe, judgment-free environment that the youth feel they belong to. Youth Engagement Specialists model the initiative's guiding values while fostering a culture in which youth and families thrive.
